## CONSTRUCTION OF NURSERY SCHOOL

In the construction of nursery school we continue giving you thanks for the assistance you are giving us so as to accomplish this activity. It is our hope that by accomplishing this activity we shall get more and high academic changes especially to our children. Also parents with lower economic levels will get simple and affordable services from this institution. Moreover the youth from UVIKANJO will get some chances of employment in this institution.

We give thanks also to father Partenus Mtega for the creation of this opportunity of creating this education service in our parish with supervising the youth to perfume different activities concerning to this project. Also we thank our parish priest for the continuous activities he performs in this school like constructing roofs, painting colors, creating windows and doors and other like. The project is going well and we expect by 2020 will be completed.

## NURSERY SCHOOL TEACHERS

After communicating with the head of school of Montessori Mtwara we succeeded to get a special form that will be used by those who requesting for the employment. In this form it is clarified that the required each pupil will pay 1,500,000 for the term which is equal to 3,000,000 for the year. Out of this payment a pupil will pay 287,000 for buying T-shirt, sweta, identity card, certificate, graduation, emergency, map stands and other mathematical tools with transport fees from Mlangali to Mtwara to school 2x40,000 that is equal to 80,000. The copy of such cost will be provided to you. The forms are required to back at school about 10<sup>th</sup> December 2019.

## MDETE PRIMARY SCHOOL

In this school by using this communication unity of UVIKANJO with the school committee under the head of school NEHEMIA JOHN MGAYAF for the year 2019 they succeeded to create three modern toilets in the teachers' homes, creating electricity ways, windows in some classrooms. Those successes are from your assistance and help from the school of HANSMOMLINGEN the

amount of 600 Euro. Also this money was used to create the source of water which until now is useful to the school and other stake holders. The letter from the head of school and the list of attendance of the school meeting will be provided to you.

### **LUPANGA PRIMARY SCHOOL**

In this school using your assistance they succeeded to perfume some housing services in classrooms and other teachers homes in 2019.

### **OTHER ROUTINES OF OUR UNION**

For this year 2019, father JohnBosco had a celebration of jubilee for 25 years of priesthood. He had a several mass to different parishes including Mlangali, Lupanga, Ludewa and Madunda. We thank that all places he went they did a gratefully celebrations to him thus we wish him to reach even the jubilee of 50 years and the above.

### **THE COMING OF OUR FRIENDS FROM KJG**

Among the important routines we done in this year is to welcome our friends from German including STEPHAN, RUBEN, JUDITH and MONJA it was grateful event to us via exchange of thoughts, feelings with ideas on how to improve our projects and lives as whole. We are wishing them the best so that another time they will come again to Tanzania.

### **HOSTEL**

Our hostel is going well regardless of some challenges from some parents to pay some hostel contributions concerning to the services we provide to them. The number of students in the centre is 80 even though we expected to have 100 students. In this year 2019 each student contributed 35,000 Tanzanian shillings as running cost of our service. Also parents aimed at contributing 64,000 Tanzanian shillings for the food like cooking oil, sugar, salt, rice, meats and vegetable. This made a total of 99,000 Tanzanian shillings.

### **OUR SUCCESS**

A total of 79 students completed their hostel contributions which made a total of 2,765,000 Tanzanian shillings, but five of the rest they fail to pay the whole payment thus they paid 100,500 Tanzanian shillings. The total collection of the whole contributions was 2,664,500 Tanzanian shillings. The expectation was to get 2,765,000 but students fail to pay 85,000.

### **MEALS MONEY**

In 2018 each student paid 76,000 for the annual payment, but the school board claimed to reduce some contributions hence reaching to 64,000. Also parents contributed 50 liters of maize and 30 liters of beans. The reduction of these contributions led to some challenges like the following>

1. Shortage of food before the ending of school season

2. Some parents they don't pay contributions on time
3. Some parents they claimed to have the difficult living standards
4. The problem of electricity connection from the higher national lines

NB. These challenges are not only to us as hostel but also the school is facing such problem that led to closing of school before its time because of the shortage of food.

### **PLANS FOR 2020**

1. Sending students to Montessori for learning nursery education and teaching as whole
2. To care about the present number of students we helped in 2019 by paying their fees and some other contributions
3. To complete the buildings of nursery school at Mlangali parish

Lastly we continue giving you thanks for the assistance you give us, we have nothing to pay for you rather we ask the LORD to bless you in your lives and routines.

**YOU ARE MOST WELCOME TO TANZANIA, WELCOME TO OUR UNION LUPANGA AND MLANGALI.**

Thanks.

Mathias Mwinuka.
